

ABC Imaging purchases Nova Blue assets at 3 locations

Acquisition of Nova Blue assets strengthens ABC Imaging's operations in Northern Virginia. Company agrees to purchase 3 hubs—including Nova Blue's Chantilly showroom—located near active and long-term construction projects.

Washington, DC—December 29, 2011—ABC Imaging, a Washington, DC-based printing and document technology company, announced today that it has agreed to purchase the assets of three locations from Nova Blue, a reprographics and surveyors' supply company headquartered in Chantilly, VA.

ABC Imaging will acquire the assets and assume operation of Nova Blue's Chantilly, Manassas, and Herndon locations.

"Nova Blue has a long history in our area," said Medi Falsafi, President and CEO of ABC Imaging. "Like ABC Imaging they started with a strong commitment to customer service. We will certainly continue to meet the expectations of Nova Blue's customers."

In business since 1950, the company has been operated by Richard "Dick" Bartlett and his family since 1965. When Mr. Bartlett purchased the company it was renamed the Northern Virginia Blueprint and Supply Co. or Nova Blue.

Formerly a surveyor, Mr. Bartlett sold surveyor supplies and equipment as well as technical drafting supplies and equipment. ABC Imaging managers said that they expect to continue to offer supplies and equipment from Nova Blue's Chantilly showroom.

"Construction continues to boom in Northern Virginia," Mr. Falsafi said referring to construction of the Washington Metro Silver Line to Dulles Airport and numerous commercial projects in the Tyson's Corners area. "Acquiring these assets from a company with a strong reputation works to our advantage as the area continues to grow."

ABC Imaging expects to complete the purchase of the Nova Blue assets by December 31.
